EXPERIENCE

python django developer

2023 - 2024

Gedexo Technologies LLP

Kerala, Malappuram

- Developed an innovative e-commerce platform using Python, Django.
- Integrated Razerpay payment gateway for secure transactions.
- Developed features using Python Django framework.
- Developed front-end components using HTML, CSS, Bootstrap, jQuery, and JavaScript.

PROJECTS

ECOMMERCE WEBSITE. With expertise in Django, I've spearheaded the development of an efficient and user-friendly online e-commerce platform. Leveraging Django for robust content management, alongside CSS and Bootstrap for optimized user interfaces, I've ensured seamless navigation and engagement for users. Notably, I've integrated essential features like adding products to favorites, ensuring a personalized experience, and enabling seamless payment processing through Razorpay. ([Try it here](#))

FEATURES:

- Add to Cart
- User Friendly UI
- Payment gateway integration

WEBSITE. Your involvement in creating and managing a website like ketinstruments.com, both frontend and back-end, demonstrates your expertise in web development. Your comprehensive understanding of technologies like Django, CSS, and Bootstrap is evident in the seamless user experience and functionality of the site. This accomplishment strengthens your portfolio and showcases your capabilities as a developer. ([Try it here](#))

EXTRA-CURRICULAR ACTIVITIES

- Participation in coding competitions or hackathons to showcase programming skills and problem-solving abilities.
- Passionate about expanding programming skills and exploring new technologies

DECLARATION

- I hereby declare that all the information furnished above are true and correct to the best of my knowledge
